

Extended Reality  
Berlin-Brandenburg e.V.

## Media Information

### About

XRBB is a publicly funded association dedicated to advancing the virtual, augmented and mixed reality industries, founded in 2016.

Our members are HighTech companies, established Media Companies, Research Institutes and Universities, Start-Ups, Freelancers and plain XR enthusiasts.

### XRBB: Empowering Berlin-Brandenburg through XR Technologies

Our focus is on fostering an inclusive community that brings together entrepreneurs, investors, creative professionals, educators, and representatives from various sectors.

Through our unique knowledge transfer program and cross-sector dialogues, we make the potential of XR accessible to all, regardless of their financial situation. As a reflection point for the public, we introduce the immersive technology revolution, discuss its risks and benefits, and drive constructive and sustainable development in the XR ecosystem.

By promoting accessibility, democratic knowledge exchange, and collaborative projects, XRBB aims to shape a vibrant XR community in Berlin-Brandenburg. As a non-profit association, our goal is to empower the region socially and economically, harnessing the power of XR technologies.

Join us at XRBB as we work towards a more inclusive and innovative Berlin-Brandenburg. Together, we can shape a dynamic XR ecosystem and create a brighter future.
